Tech & AI Intern

ADMEXO | Noida, Uttar Pradesh | June 16, 2026

Stipend: Rs.10,000 – Rs.15,000 / month

Why it fits: Directly rewards fast learners who can experiment with AI tools and web technologies. Your HTML/CSS, Figma, and ongoing AIML training are strong alignment points. SIH participation and 200+ CodeChef problems demonstrate the 'builder' mindset they seek. Best stipend among matched roles.

Apply: <https://to.indeed.com/aarxg7gsnk86>

#2

82%

UI Developer Intern

Eleva8e Digital | Dwarka, Delhi | June 19, 2026 (TODAY)

Stipend: Rs.5,000 – Rs.7,000 / month

Why it fits: Perfect match for HTML5, CSS3, and Figma skills. Role explicitly values Figma knowledge — a rare differentiator at fresher level. Portfolio is mandatory; push e-commerce project to GitHub before applying. Apply within 24 hours.

#3

78%

Web Developer Intern

Debox Technology | Greater Noida, Uttar Pradesh | June 3, 2026

Stipend: Rs.5,000+ / month

Why it fits: Very close to ABES College — minimal commute. HTML/CSS skills are a strong match. Mentions Node.js as an advantage; reference your current training even if early-stage. Mentorship environment suits a first internship.

Apply: <https://to.indeed.com/aasjgxpvyf8c>

#4

62%

Full Stack Developer Intern

Anohim | Rohini, Delhi | June 2, 2026

Stipend: Up to Rs.20,000 / month

Why it fits: Highest stipend in the list but requires Laravel, React, PHP, and MySQL — skills not yet in the profile. Apply after completing at least one React project. PPO/full-time conversion possibility makes it a worthwhile stretch target.

Apply: <https://to.indeed.com/aatngw4986vp>

#5

55%

Full-Stack Intern (Python & React)

Fusionpact Career | Noida, Uttar Pradesh | March 6, 2026

Stipend: Not disclosed

Why it fits: Requires Python and React — both outside the current stack. Good aspirational target. Recommended to apply in 2–3 months after gaining Python basics and React fundamentals.
