Frontend / UI-UX / Full-Stack internship market — NCR region, June 2026

MOST IN-DEMAND SKILLS ACROSS MATCHED JOBS

Skill	Frequency	Demand Bar	Saanvi Has It?
HTML / CSS	5/5 jobs	■■■■■	Yes
JavaScript	4/5 jobs	■■■■■	Partial
DSA / Logic	4/5 jobs	■■■■■	Yes — 200+ solved
React	3/5 jobs	■■■■■	Gap
Node.js	3/5 jobs	■■■■■	In training
Git / GitHub	3/5 jobs	■■■■■	Basic
Figma	3/5 jobs	■■■■■	Yes — strong
Python	2/5 jobs	■■■■■	Gap
Bootstrap	2/5 jobs	■■■■■	Basic
AWS / Cloud	1/5 jobs	■■■■■	Training

STIPEND RANGE — NCR FRESHER / INTERN MARKET (2026)

Role Category	Low End	High End	Typical	Saanvi Target
UI/UX Designer Intern	Rs.4,000	Rs.10,000	Rs.6,000	Rs.6–10K
Frontend Dev Intern	Rs.5,000	Rs.15,000	Rs.8,000	Rs.8–15K
Full-Stack Dev Intern	Rs.8,000	Rs.20,000	Rs.12,000	Rs.10–20K
Tech/AI Intern	Rs.10,000	Rs.20,000	Rs.15,000	Rs.10–15K

KEY MARKET INSIGHTS

i

AI Tool Fluency is Now Expected

Even non-AI roles like UI Developer and Web Developer explicitly ask for familiarity with ChatGPT, GitHub Copilot, Cursor, or similar tools. Saanvi's AIML training is ahead of the curve.

i

Portfolio Over Degree — Every Time

4 out of 5 jobs specifically ask for a portfolio, GitHub profile, or live project links. Academic credentials matter far less than proof of work at this stage.

i

Figma is a Niche Advantage

Only ~15% of B.Tech freshers have Figma experience. For UI/UX roles, this is a direct shortlist advantage. Monetise this by creating 2 polished case studies immediately.

i

React is the Gateway to Higher Stipends

All roles paying above Rs.10,000/month list React as preferred or required. Learning React after JavaScript fundamentals is the single highest-ROI upskilling move.

i

Certifications Signal Seriousness

AWS Academy, Oracle, and Deloitte certifications signal self-driven learning — a quality freshers in the NCR market rarely demonstrate. Feature these prominently.

i

Apply Early and Apply Often

Fresher roles in NCR fill in days. The Eleva8e Digital role posted today is a live example. Job alerts + same-day applications are critical strategy at this career stage.

OVERALL FIT & COMPENSATION ASSESSMENT

Profile Strength: Saanvi's combination of Figma design skills, cloud certifications, and 200+ DSA problems is uncommon for a first-year B.Tech student. The profile is competitive for UI/Frontend intern roles right now, and will become competitive for full-stack roles within 3–4 months of targeted upskilling.

Compensation Reality: Realistic near-term range is Rs.5,000–Rs.15,000/month. The Rs.20,000/month ceiling (Anohim) becomes accessible once React and a project portfolio are in place. Post-internship full-time salaries for frontend roles in NCR range Rs.3–6 LPA for freshers with strong portfolios.

Verdict: Apply to Eleva8e Digital and ADMEXO this week. Spend the next 60 days on JavaScript and GitHub. Revisit Anohim and Fusionpact in Month 3. The market demand is there — execution speed is the only variable.
